BEWORD

CONFERENCE 29.09.23

WWW.BEWORD-CONFERENCE.BE

BeWord Conference 2023

For International Translation Day, the Belgian Chamber of Translators and Interpreters is delighted to invite you to its very first international conference, held in Charleroi, on September 29, 2023.

At this conference, held exclusively in English, 6 speakers will come to share their advice and experience on the following theme:

Being a Language Professional in 2023 : Challenges & Opportunities

What strategies can an experienced translator or interpreter implement to advance their career? International crises, the generalisation of machine translation and practices such as post-editing are all putting a strain on our daily jobs and force us to adapt. Yet the globalisation and digitalisation of our society create many promising opportunities for linguists. This event will explore what experienced language professionals can do to maintain a flourishing and exciting career.

You will find the programme and more details on the event website: **www.beword-conference.be**. Members of sister associations are eligible for preferential Early Bird rate. This will be an opportunity to stock up on ideas and network with colleagues!
